METIS INTRODUCES LEGENDA 1.0: THE AI REVOLUTIONIZING SECURE AND RELIABLE LEGAL DOCUMENT ANALYSIS

MILAN, JANUARY 20, 2025 – Metis (metisai.it/en/), an innovative Italian startup in the LegalTech sector, announces the launch of **Legenda 1.0** (legenda-app.com), a cloud-based solution transforming document analysis with artificial intelligence (AI).

Designed specifically for law firms and corporate legal departments, Legenda enhances due diligence and contract analysis processes through advanced semantic search capabilities. The application delivers concise answers with direct source references, ensuring maximum information reliability. Available in both Professional and Enterprise versions, Legenda integrates seamlessly with existing systems and offers customized functionalities powered by generative AI.

“Legenda combines cutting-edge technology with an intuitive design, adhering to rigorous privacy and security standards such as GDPR and SOC 2,” said Francesco Dighera, CTO of Metis. Paolo Poto, Head of Sales & Partnerships, added, “This tool not only simplifies legal work but also enables complex AI-powered workflows for compliance.”

About Metis

Founded in 2022, Metis is an innovative startup specializing in the development of LegalTech and RegTech solutions that enhance productivity through artificial intelligence. The company serves an international clientele, including global law firms, venture capital funds, and institutions like the New York University School of Law. A member of Assolombarda, InnovUp, and the Global Legal Tech Hub, Metis is backed by a network of international business angels.

Legenda is available for a 30-day free trial at legenda-app.com. For more information about Legenda or to start your free trial, visit <https://legenda-app.com>.
